Progress Report
Team 3 Project

This timeline's objectives have been accomplished. This report elaborates on both the advancements made and the difficulties we faced. In addition, we will have detailed strategies for progressing toward the project's completion.

Completed Development

- GUI Creation: A graphical user interface has been designed and implemented.

Barriers To Success

- Team Integration: Incorporating new team members into the project has resulted in communication difficulties.

- New Functionality: The introduction of a new functionality has added complexity to the project.

Arrangements For Project Completion

Goals were defined and tasks were assigned to individual team members to focus efforts and increase efficiency.
